WORK EXPERIENCE

01/08/2013–Present   Computer programmer

Traveltech, Málaga (Spain)

Analysis and development of software for Veturis Travel and VayaCruceros.

Provide SOAP Web Services for travel agencies.

Intregrate SOAP Web Services of third party companies.

I am in charge of the redmine solution used to manage the project.

01/2010–2014   Custom Software Developer

Freelance, Málaga (Spain)

Development of software and Linux server management.

Technical requirements analysis and ongoing contact with clients.

Success cases:

Management Software for Genetaq, Molecular Genetics Laboratory*.*

In 2010 I started the work of obtaining the technical requirements. I did an analysis of the best technology and developed the software doing the tests and deploying in the company server. After that I did several iterations adding features and improving the performance.
Technology used: J2EE, Spring Security, JPA, Hibernate, JSP, JSF, PostgreSQL and Jasper Reports.
Redmine for managing the project.

Vyoleta.com

Online ink store. I used Magento eCommerce solution and MySQL as database.

09/2012–03/2013   Educational Product Manager

I2 Capital Group, Marbella (Málaga) (Spain)

Analysis of technology and applications in the educational area.

Design of educational software.

2003–2009   Analyst and web developer

Ingenia, SA, Málaga (Spain)

Development of software with Java and different framework such as struts, spring, hibernate, iBatis and jQuery. Using databases such as Oracle, SQL Server, PostgreSQL and MySQL.

Main projects:

- Electronic administration for the Málaga Local Government. Authentication and digital signature of documents using the user digital certificate through the @firma platform.

- Electronic management of official procedures for the Junta de Andalucía using the PCT Platform.

Medical software using Power Builder and informix database.

Application software for Financiera y Minera using Visual Basic and SQL Server.
